

EMPLOYEE ASSISTANCE PROGRAM

We understand that contacting the Employee Assistance Program (EAP) may have been a difficult step. Our goal is to make sure this process is as comfortable and helpful as possible.

EAP offers visits for assessment, problem solving, referral, and follow-up to you and members of your immediate family. There is no cost to you. The program employs professional counselors with the education and experience necessary to help.

Together we will come up with a plan that may include another EAP appointment, provision of resources or referral recommendations. If outside referrals are recommended, we will attempt to find those that best meet your needs, as well as accept your insurance.

Confidentiality

We adhere to the strictest laws and ethics in regard to confidentiality.

No one will know you have been to EAP unless you choose to tell them, or provide us written permission to do so.

We are here to serve and work for you and we value your trust in us.
