

Returned Check Policy

- All checks returned for insufficient funds will be pursued toward collection of the amount due plus any service charge as outlined in the rate schedule, in the form of cash or certified check.
- Upon Montgomery County receiving notification of the returned check, the customer or residential user will not be allowed to use any Montgomery County facility until payment is received. Customers who have established credit with Montgomery County and who have checks returned for insufficient funds will have their credit revoked.
- Once payment is received, the customer or residential user will be allowed to use Montgomery County facilities on a cash or certified check only basis, but they will be given a one-time opportunity to apply for future check writing privileges. The customer or residential user will be required to cover all costs associated with bank and credit checks.
