**Subject:** RE: FM's 2015 Capital Project

Dave:

I reviewed the language of the State appropriation and it is appropriate for use for the Student Union with after the required approvals.

The project is still being reviewed by DASNY and Bond Counsel using the finance application submitted to SUNY in early July. In order to expand the elements included in this critical maintenance project, please complete a revised finance application showing the different components and their cost breakdowns.

I will then submit the replacement finance application to DASNY for final review and approval.

Let m know if you have any questions.

Rebecca

Hi Rebecca - this inquiry is regards FM's 2015 Campus Safety/Critical Maintenance Projects (Project # C12113). The bids for our initial list of campus safety/critical maintenance projects came in less than the estimated budgets. As a result of having these unspent funds, we'd like to do a few more campus safety/critical maintenance projects that are in our Student Union Building but first wanted to confirm that would be acceptable to SUNY.

Look forward to hearing back from you. As always please contact me with any questions.

Thx much, Dave
