Frontier Communications Corporation

136 Erwin St., Boonville NY 13309 | business.frontier.com

Executive Summary

Our team of Business Specialists is dedicated to gaining a full understanding of your capabilities and challenges. That way, we can custom-tailor a solution that meets your needs and gives you the confidence to move forward.

Frontier is pleased to present this budgetary proposal to Montgomery County Sheriff.

The services set forth in this budgetary proposal will be provided by Frontier Communications and its affiliates (collectively referred to herein as "Frontier"). Frontier does not consider the proposal itself to be a legally binding offer to contract. This pricing is valid for up to 15 days from the date hereof. Taxes and surcharges are not included.

Project Summary

Service Locations:

200 Clark Dr., Fultonville (Glen) NY 12072

Reason for Consideration:

- **Existing Internet Access from circuit 87/KQGL/592787//CZUC** will be upgraded from 10/10Mbps to 100Mbps/100Mbps
 - This upgrade will increase the bandwidth required to process day to day business operations that use the Internet for the Sheriff's Dept. and 911 Dispatch Center.
 - Upgrade will reduce congestion when performing Microsoft updates, etc. as bandwidth to do so is increasing
- **Frontier Simply Wi-Fi XT** will be installed throughout various locations on the premise. This will allow wireless access in Jail/Conference room, Multi-Use Room, Admin and Dispatch Center through a single sign on. This allows availability to access a wireless network when not at your desk.

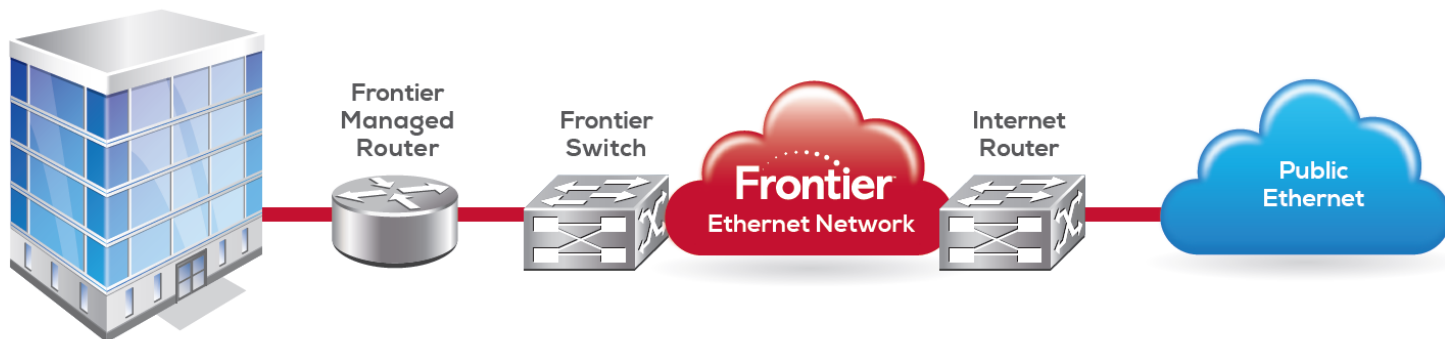

Summary of Service Requested:

Existing Ethernet Internet Access Upgrade from 10->100Mbps

Frontier EIA can reach high-speed access up to 1Gig. Our solution includes:

- Integrated Internet access solutions with a single point of contact for service needs
- Limited susceptibility to peak time usage fluctuations
- Enhanced service reliability and performance
- Easy integration with existing networks and infrastructures
- High availability and performance
- Engineered lines configured for performance to limit noise and environmental factors
- Symmetrical upload and download speeds enable uncompromised traffic flow
- Well planned and coordinated migration from existing internet with minimal downtime
- Commercial grade network with a coast-to-coast data backbone Metro Ethernet MEF 2.0 Certification
- Dedicated Internet Access (DIA) provides a direct connection to the Frontier Core Internet Router.

Local Area Network

Frontiers' Simply Wi-Fi XT. Our Solution Includes:

- Frontier Simply Wi-Fi Secure brings your wireless network all together. Service provides four access points, 1 PoE Switch and up to 80 simultaneous connections, easy-to-use security, reporting and analytics tools. Separate guest & private network with Frontier managing both networks.

Summary of Charges: Revision to Account #: 51819610141204154**Sixty-Six Month Term Agreement Service Options:**

Product	Schedule Type/Purpose	Service Term	Monthly Recurring Cost	Non-Recurring Cost
100Mbps Ethernet Internet Access	Revision to upgrade current service	66Months	\$870.00	\$0.00
Simply Wi-Fi XT	New Service	MTM	\$170.00	\$0.00
<i>Total Monthly Recurring Charge:</i>			\$1,040.00	
<i>Total Non-Recurring Charge:</i>				\$00.00

Note: Voice Services Not Included

Scope of Work:

Frontier will configure lines and upgrade existing circuit. Up to 5 Public IP Addresses included. Modem/Router not included. Frontier will install wireless network to pre-determined locations. Wireless restrictions/coverage area limitations apply.

Billing & Payments:

Monthly Recurring Cost will be billed upon Job Completion. Please refer to Contract Schedules for complete information.

Please let me know if you have any questions or are interested. I look forward to working with you.

Thanks,

Stacy Mason-Williams
