Midwest Employers requires a completed and signed excess application prior to issuing the policy.

Midwest Employers must be notified of any aircraft changes occurring during the policy period.

MWEC premium rates quoted per \$100 payroll.

Midwest Employers allocates payroll to covered volunteer firefighters for premium rating purposes rather than using the population rating model. \$12,500 of payroll is assigned to each active volunteer. Midwest has estimated 84 active volunteer firefighters and has therefore assigned an additional \$1,050,000 of payroll (84 vols x \$12,500 annual payroll) to the total payroll estimate (\$37,063,919) to account for the covered volunteers.

Coverage for acts of terrorism, as defined in the Terrorism Risk Insurance Act, as amended, (the "Act"), is included in the quote for your policy.

As defined in Section 102(1) of the Act: The term "act of terrorism" means any act that is certified by the Secretary of the Treasury in consultation with the Secretary of Homeland Security, and the Attorney General of the United States-to be an act of terrorism; to be a violent act or an act that is dangerous to human life, property, or infrastructure; to have resulted in damage within the United States, or outside the United States in the case of certain air carriers or vessels or the premises of a United States mission; and to have been committed by an individual or individuals as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States Government by coercion. Under your coverage, any losses resulting from certified acts of terrorism may be partially reimbursed by the United States Government under a formula established by the Act. However, your policy may contain other exclusions which might affect your coverage, such as an exclusion for nuclear events. Under the formula, the United States Government generally reimburses 80% beginning on January 1, 2020 of covered terrorism losses exceeding the statutorily established deductible paid by the insurance company providing the coverage. The Act contains a \$100 billion cap that limits U.S. Government reimbursement as well as insurers' liability for losses resulting from certified acts of terrorism when the amount of such losses exceeds \$100 billion in any one calendar year. If the aggregate insured losses for all insurers exceed \$100 billion, your coverage may be reduced. The portion of your annual premium that is attributable to coverage for acts of terrorism, as defined in the act is shown in the Terrorism Surcharge column listed on the quote summary above, and does not include any charges for the portion of losses covered by the U.S. government under the Act.

Coverage includes MWEC's Total Cost of Risk (TCOR) Service Plan at no additional cost to the employer.

Disclaimer: This summary includes only a general description of coverage. For a detailed description of the terms and conditions of the policy, please refer to the actual policy form.
