**Re: Cemetery Drive Bridge Replacement over the South Chuctanunda Creek  
PIN 2754.54, D036212  
Town of Florida, Montgomery County, New York**

Dear Mr. Mead:

In accordance with Chapter 14 of the Procedures for Locally Administered Federal Aid Projects, enclosed is the Contract Award Documentation Package as prepared by **GPI/Greenman-Pedersen, Inc.** for the subject project. The award package has been prepared in accordance with Chapter 14 of the Procedures. The documentation for the Contract Award Package follows the listing as shown in Section 14.4.

**A) Proof of Advertising**

The contract appeared in the New York State Contract Reporter on April 18, 2022. The contract was also advertised in The Daily Gazette on April 18, 2022.

**B) Memorandum of Bids**

The Memorandum of Bids is enclosed and **requires your signature**. The spreadsheet shows the Engineer's Estimate of Quantities and Unit Prices. The memorandum also shows the unit prices bid by all bidders.

**C) Verification of the Low Bidder (mathematical certification)**

**GPI/Greenman-Pedersen, Inc.** completed the mathematical certification of the low bidder on May 11, 2022 as part of the bid analysis. No corrections were necessary for any of the bids. The low bidder's bid remained the announced bid of \$1,139,455.00.

**D) Recommendation of Award by Sponsor**

Enclosed is the Recommendation of Award proposing award of the contract to **Bette & Cring, LLC of Latham, NY**. This recommendation **requires your concurrence**.

## **E) Copy of Signed Proposal of the Low Bidder**

The proposal included all of the required items as identified in the bid completeness check as found in the information to bidders, including the following:

1. Bid Form
2. Certified Copy of Resolution of Board of Directors (for Corporations)
3. Unit Price Bid Sheets
4. Non-Collusive Bidding Certificate
5. 5% Bid Security (Bid Bond/Certified Check)
6. Affidavit of Worker's Compensation
7. Iran Divestment Act Certification
8. Disclosure of Lobbying Activities
9. D/M/WBE Utilization Goals

## **F) Bid Analysis from Sponsor**

The following components have been addressed in conducting the bid analysis:

1. The contract advertisement met the contract advertisement requirements by advertising for a minimum of three weeks in advance of the bid opening in the New York State Contract Reporter. Given that **five** contractors bid on the contract, adequate competition has been secured.
2. Bids were opened on May 10, 2022 at 2:00 PM.
3. The bidder proposed for award is the same low bidder that was determined at the bid opening, **Bette & Cring, LLC**.
4. The low bid is 20.9% below the engineer's estimate and 3.1% below the second bidder. A review of all bids does not indicate unbalanced bidding by the low bidder. The low bid is more than 15% lower than the Engineer's Estimate, therefore a reasonable justification is to be included as follows:

The low bidder's cost for two lump sum items (Item 551.13 – Furnishing Equipment for Driving Piles and Item 619.0501 – Temporary Structures and Approaches) were significantly less than the engineer's estimate. The difference of these two items makes up over 60% of the cost difference. Considering the low bidder's experience in completing these two items, there is no concern that they can complete the work at the bid amount.

## **G) Documentation demonstrating the low bidder's good faith effort of Disadvantaged Business Enterprise Competition**

In accordance with Paragraph 13.5.1 of the Procedures, the goals outlined in the Contract Proposal which was signed by **Bette & Cring, LLC** indicates a 6% DBE goal participation. **Bette & Cring, LLC** has been recognized as the apparent low bidder and will be submitting a DBE Utilization Package within seven (7) days of the EBO template initiation by New York State Department of Transportation.

## **H) Certification of the Low Bidder Responsibility**

Using the following guidelines as established by the Governor's Executive Order #170.1 the low bidder has been determined to be responsible.

1. The low bidder does not lack the expertise, experience or financial resources to complete the project.
2. There is no apparent criminal conduct in connection with government contracts.

3. The low bidder has not demonstrated grave disregard for the personal safety of employees, government personnel, or members of the public.
4. The low bidder has no record of willful non-compliance with prevailing wages.
5. The low bidder has no other significant labor law violations.
6. The low bidder has no apparent violations of the Workers Compensation Laws.
7. The low bidder has no apparent criminal conduct involving violations of Environmental Conservation Law or other environmental statutes.
8. The low bidder has apparently demonstrated good faith efforts to comply with Federal or State statutes and regulations regarding efforts to solicit and utilize Minority, Women or Disadvantaged Business Enterprises on government contracts.
9. The low bidder apparently complies with State and Federal equal opportunity statutes and regulations.
10. Since the low bidder's submitted bid is 20.9% lower than the engineer's estimate, performance and completion of the project appears likely.
11. There are no other causes so serious and compelling that it raises questions about the present responsibility of the low bidder.

In addition to the items above, the following checks have been performed as part of the review for bidder responsibility:

- A check of the US Federal Contractor Registration System for Award Management (SAM) has been made for Active, Debarred, Suspended, or Voluntarily Excluded Firms and **Bette & Cring, LLC** holds an active registration to complete federally funded contracts.
- A check of the Department of Labor's monthly list of firms debarred for willful violations of the labor law has been made and **Bette & Cring, LLC** does not appear.
- A check of the Department of State's Corporation database has been made and **Bette & Cring, LLC** has the proper authority to conduct business in New York State.
- A check with the Office of Safety and Health Administration for possible safety violations shows that **Bette & Cring, LLC** has no record of any **major** violations.

**I) Certification of resolution of conditional approval Items at PS&E Approval**

There were no conditional approval Items at the time of PS&E approval.

**J) Copy of all amendments/addendum not included in with the original proposal**

Amendment 1 was issued on April 22, 2022.

Amendment 2 was issued on May 3, 2022.

**K) A description from the Sponsor on how they intend to inspect and provide QA/QC**

1. Contract Inspection: Montgomery County will retain **GPI** to provide construction support services and oversee construction inspection.
2. Project QA/QC: The project will be administered in accordance with the latest New York State Department of Transportation Standard Specifications. Montgomery County will require all manufacturers, vendors, contractor and construction inspection engineers to certify materials and workmanship ensuring they conform to the Specifications.

**L) Bridge Construction Unit Cost Data**

This project is a single bridge replacement, therefore the bridge construction cost is the total bid amount of \$1,139,455.00. The itemized bridge share of construction costs for the low bidder for each bridge item is enclosed along with pertinent contract plan sheets in accordance with Section 14.6 of the Procedures.

**GPI/Greenman-Pedersen, Inc.** recommends that Montgomery County award the subject project to **Bette & Cring, LLC**. If you are in concurrence with this, please include all supporting documents (A-L above) in a letter to NYSDOT Region 2 to complete the Award Documentation Package requirements.

Should you have any questions regarding the enclosed information or require any additional information, please feel free to contact me at (518) 898-9566 or [skern@gpinet.com](mailto:skern@gpinet.com).

Sincerely,

**GREENMAN-PEDERSEN, INC.**

## NON-COLLUSIVE BIDDING CERTIFICATIONS

### REQUIRED BY SECTION 139-D, STATE FINANCE LAW and SECTION 103-D OF GENERAL MUNICIPAL LAW

“Section 139-d, SFL and Section 103-d, GML, “Statement of non-collusion in bids to the state.”

1. Every bid hereafter made to the state or any public department, agency, or official thereof, where competitive bidding is required by statute, rule, or regulation, for work or services performed or to be performed or goods sold or to be sold, shall contain the following statement subscribed by the bidder and affirmed by such bidder as true under the penalties of perjury:

Non-collusive bidding certification.

(a) By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his knowledge and belief:

(1) The prices in this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purpose of restricting competition, as to any matter relating to such prices with any other bidder or with any competitor;

(2) Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the bidder and will not knowingly be disclosed by the bidder prior to opening, directly or indirectly, to any other bidder or to any competitor; and

(3) No attempt has been made or will be made by the bidder to induce any other person, partnership, or corporation to submit or not to submit a bid for the purpose of restricting competition.

(b) A bid shall not be considered for award nor shall any award be made where (a)(1)(2) and (3) above have not been complied with; provided however, that if in any case the bidder cannot make the foregoing certification, the bidder shall so state and shall furnish with the bid a signed statement which sets forth in detail the reasons therefore. Where (a)(1)(2) and (3) above have not been complied with, the bid shall not be considered for award nor shall any award be made unless the head of the purchasing unit of the state, public department, or agency to which the bid is made, or his designee, determines that such disclosure was not made for the purpose of restricting competition.

The fact that the bidder (a) has published price lists, rates, or tariffs covering items being procured, (b) has informed prospective customers of proposed or pending publication of new or revised price lists for such items or (c) has sold the same items to other customers at the same prices being bid, does not constitute, without more, a disclosure within the meaning of subparagraph one (a).

2. Any bid hereafter made to the state or any public department, agency, or official thereof by a corporate bidder for work or services performed or to be performed or goods sold or to be sold, where competitive bidding is required by statute, rule, or regulation, and where such bid contains the certification referred to in subdivision one of this section, shall be deemed to have been authorized by the board of directors of the bidder and such authorization shall be deemed to have included the signing and submission of the bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.”

**REQUIRED BY TITLE 23, U. S. CODE, AND SECTION 112. A NON-COLLUSIVE BIDDING CERTIFICATION MUST BE INCLUDED IN EVERY BID PROPOSAL REGARDLESS OF WHETHER NYSDOT SPECIFICATIONS OR LOCAL SPECIFICATIONS ARE USED.**

(A) 2

Code-Highways and does hereby certify, in conformance with said Section 112 of Title 23, U. S. Code-Highways that the said Contractor has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the above contract."

**REQUIRED BY TITLE 49, CFR, VOLUME 1, SUBTITLE A, PART 29**

"The signatory to the proposal, being duly sworn, certifies that, EXCEPT AS NOTED BELOW, his/her company and any person associated therewith in the capacity of owner, partner, director, officer, or major stockholder (of five percent or more ownership):

1. Is not currently under suspension, debarment, voluntary exclusion, or determination of ineligibility by any Federal agency;
2. Has not been suspended, debarred, voluntarily excluded, or determined ineligible by any Federal agency within the past three years;
3. Does not have a proposed debarment pending; and
4. Has not been indicted, convicted, or had a civil judgment rendered against it by a court of competent jurisdiction in any matter involving fraud or official misconduct within the past three years.

EXCEPTIONS: The Contractor should list any relevant information, attaching additional sheets to the proposal if necessary. (Exceptions will not necessarily result in disapproval, but will be considered in determining responsibility. For any exception noted, the Contractor should indicate to whom it applies, the initiating agency, and the dates of actions. Providing false information may result in criminal prosecution or administrative sanctions).

**THESE MUST BE INCLUDED IN ALL FEDERAL AID CONTRACTS. HOWEVER, THE NYS COLLUSIVE BIDDING CERTIFICATION AND MANY IN USE BY LOCAL GOVERNMENTS ARE ALMOST IDENTICAL AND ARE ACCEPTABLE.**

**THE FOLLOWING PAGES ARE THE REQUIRED CERTIFICATION REGARDING NON-COLLUSIVE BIDDING PROCEDURES AND THE CONTRACTOR'S ELIGIBILITY TO SUBMIT A BID UNDER FEDERAL LAW. THE LAST PAGE IS A GENERAL BIDDER INFORMATION FORM. ALL SHOULD BE INCLUDED IN THE CONTRACT DOCUMENTS, IMMEDIATELY FOLLOWING THE PAGE(S) WHICH CONTAINS THE NON-COLLUSIVE BIDDING REQUIREMENTS. BY SIGNING ONE OF THESE CERTIFICATIONS, THE CONTRACTOR CERTIFIES THAT HE UNDERSTANDS AND AGREES TO BE BOUND BY THE PROVISIONS OF THE FOLLOWING LAWS:**

### NATURAL RESOURCE PERMIT CONDITIONS - Apply to the Following Permits: WATER QUALITY CERTIFICATION; EXCAVATION & FILL IN NAVIGABLE WATERS

- 1. State May Order Removal or Alteration of Work** If future operations by the State of New York require an alteration in the position of the structure or work herein authorized, or if, in the opinion of the Department of Environmental Conservation it shall cause unreasonable obstruction to the free navigation of said waters or flood flows or endanger the health, safety or welfare of the people of the State, or cause loss or destruction of the natural resources of the State, the owner may be ordered by the Department to remove or alter the structural work, obstructions, or hazards caused thereby without expense to the State, and if, upon the expiration or revocation of this permit, the structure, fill, excavation, or other modification of the watercourse hereby authorized shall not be completed, the owners, shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may require, remove all or any portion of the uncompleted structure or fill and restore to its former condition the navigable and flood capacity of the watercourse. No claim shall be made against the State of New York on account of any such removal or alteration.
- 2. State May Require Site Restoration** If upon the expiration or revocation of this permit, the project hereby authorized has not been completed, the applicant shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may lawfully require, remove all or any portion of the uncompleted structure or fill and restore the site to its former condition. No claim shall be made against the State of New York on account of any such removal or alteration.
- 3. State Not Liable for Damage** The State of New York shall in no case be liable for any damage or injury to the structure or work herein authorized which may be caused by or result from future operations undertaken by the State for the conservation or improvement of navigation, or for other purposes, and no claim or right to compensation shall accrue from any such damage.
- 4. Conformance With Plans** All activities authorized by this permit must be in strict conformance with the approved plans submitted by the applicant or applicant's agent as part of the permit application. Such approved plans were prepared by the applicant or applicant's agent received 6.17.21 and 7.6.21.
- 5. Conditions Prevail Over Plans** If any condition of this permit conflicts with the approved plans, the permit condition shall prevail over the plans.

**6. Failure to Meet Permit Conditions** Failure of the permittee to meet all the conditions of this permit is a violation of this permit and grounds for an order to immediately cease the permitted activity at the project site.

**7. Prior Approval of Changes** If the Permittee desires to make any changes in construction techniques, species to be planted, the site plan, any mitigation plan, scheduling or staging of construction, or any other aspect of this project, the Permittee shall submit a written request to the Regional Permit Administrator to make such proposed changes and shall not make such changes unless authorized in writing by the Department.

**8. Work Within Area Depicted on Plans** All construction activity, including operation of machinery, excavation, filling, grading, clearing of vegetation, disposal of waste, street paving and stockpiling of material must take place within the project site as depicted on the project plans referenced by this permit. Construction activity is prohibited within areas to be left in a natural condition or areas not designated by the subject permit.

**9. Human or Archaeological Remains** If any human remains or archaeological remains are encountered during excavation, the permittee must immediately cease, or cause to cease, all work in the area of the remains and notify:

Regional Permit Administrator  
NYSDEC Region 4 Headquarters  
1130 North Westcott Road  
Schenectady, New York 12306  
email: [r4dep@dec.ny.gov](mailto:r4dep@dec.ny.gov)

Work shall not resume until written permission to do so has been received from the Department.

**10. Minimize Adverse Impacts to Wetlands, Wildlife, Water** All work must be performed in a manner which minimizes adverse impacts to wetlands, wildlife, water quality and natural resources.

**11. Limit Clearing of Natural Vegetation** Clearing of natural vegetation shall be limited to that material which poses a hazard or a hindrance to the construction activity.

**12. Erosion and Sediment Controls** Filter fabric barriers, silt fencing, or other methods to control erosion shall be properly installed according to the current *NYS Standards and Specifications for Erosion and Sediment Control* (i.e., on the downslope edge of any disturbed areas). These erosion and sediment controls must be put in place before any disturbance of the ground occurs, must be maintained "in place" in good working order throughout project construction, and are to be removed once all disturbed land is suitably stabilized.

**13. Storage of Construction Equipment, Materials** During construction, storage of construction equipment, unused materials and/or excavated soil shall be confined to an approved upland area at least 100 feet landward of any waterbody or wetland. Upon project completion, any demolition debris, excess construction, and/or excess excavated materials shall be immediately and completely disposed of at an approved upland site more than 100 feet from any waterbody or wetland, and outside any 100-year floodplain. These materials shall be suitably stabilized so they do not inadvertently enter any waterbody, wetland, wetland adjacent area, or 100-year floodplain.

- 14. Minimize Stream Disturbance** Disturbance to the bed and banks of the stream shall be kept to the minimum necessary to complete the project.
- 15. No Interference With Navigation** There shall be no unreasonable interference with navigation by the work herein authorized.
- 16. No Impedance of Aquatic Organisms** The project shall not impede passage of aquatic organisms.
- 17. Use of Natural Methods** Natural methods and/or bioengineered techniques of shoreline and stream bank stabilization (e.g., native plantings, live stakes, root wads, brush bundles, coir logs, etc...) shall be utilized for stabilization projects with aquatic habitat restoration and/or improvement objectives.
- 18. Precautions Against Contamination of Waters** All necessary precautions shall be taken to preclude contamination of any wetland or waterway by suspended solids, sediments, fuels, solvents, lubricants, epoxy coatings, paints, concrete, leachate or any other environmentally deleterious materials associated with the project.
- 19. Control of Concrete, Leachate, and Washings** No wet or fresh concrete; concrete leachate; or washings from Redi-Mix trucks, mixers or other devices shall be allowed to enter any wetlands or waterbodies during construction.
- 20. Control of Sediment** Sediment laden runoff shall not be allowed to enter any waterbody or wetland, either directly or indirectly, in such a quantity that would promote deposition.
- 21. No Discernable Change in Turbidity** For projects within streams, the water below a stream work site shall remain as clear as the flowing water above the stream work site. In non-flowing waterbodies, there shall be no discernable change in water clarity (turbidity) proximate to the work area as a result of the project.
- 22. Water Diversion Around Work Site** For projects within streams, the stream flow shall be diverted to isolate the work area by use of: a) sandbags, b) cofferdam, c) berm, d) temporary diversion channel, e) temporary diversion pipe, f) pump around, and/or g) pond outlet structure. Impeding fish and aquatic organism passage while diverting water around work site must be avoided whenever possible.
- 23. Turbidity Control from Excavated Soil** Excavated soil shall be suitably retained and covered to avoid any direct or indirect discharge of sediment or turbid waters to wetlands or water bodies.
- 24. Upland Discharge of Pump-out Water** Waters accumulated in an isolated work area shall be discharged to an upland settling basin, field or wooded area to provide for settling and filtering of solids and sediments before water is returned to the stream or waterbody. Return waters must be as clear as the flowing water upstream from the work area when work involves a stream.
- 25. Equipment Operation for Stream Projects** Equipment operation in the stream channel is prohibited, except where the work area has been isolated from stream flow using a method identified herein or other method that has received written approval from the Department.
- 26. Rock Slope for Stabilization** Slope of rock rip-rap shall be at least two-foot horizontal to one-foot vertical (2:1 slope) or flatter. The first layer of rock rip-rap shall be installed to a depth of at least approximately 18 inches below the stream bed elevation, or “keyed” into the stream bed, in an effort to

avoid scour that may destabilize the rock slope.

**27. Rock Riffle Construction** All interstitial voids within the rock riffle(s) shall be chinked with native stream bed material so that normal base flows remain on top of the riffle and do not flow subsurface.

**28. Headwall Installation** Rock headwalls shall be constructed at the stream inlet and outlet when installing or replacing a culvert.

**29. Turbidity Curtain** When required by approved project plans, a filter fabric (turbidity) curtain weighted across the bottom and suspended at the top by floats shall be positioned at the waterward boundary of the work area and parallel to the shoreline to contain any turbid waters that may be generated during construction. The curtain shall remain in place and in functional condition during all phases of construction and shall remain in place until the turbidity inside the curtain no longer exceeds ambient levels. The curtain shall be removed only after work is complete and the site is suitably stabilized.

**30. No Waterward Encroachment** A replacement bulkhead/retaining wall must not encroach any further into the lake, pond or stream than the existing bulkhead/retaining wall.

**31. Gravel Bar Skimming** If authorized project includes gravel bar skimming, gravel shall be excavated from the stream channel, not pushed through the channel up against the banks. Depth of gravel skimming must not exceed that shown on approved plans.

**32. Invasive Species Control** To prevent the unintentional introduction or spread of invasive species, as defined by the Prohibited and Regulated Invasive Species regulations (6 NYCRR 575), all construction equipment shall be thoroughly cleaned of mud, seeds, vegetation, roots, rhizomes, etc. and other debris before entering any approved construction areas within the freshwater wetland, its wetland adjacent area, or within 50 feet of a protected stream's bed or banks.

If invasive plant species are already found established on the site, equipment shall be thoroughly cleaned before exiting the construction site. All invasive species plant parts and propagules that are removed from equipment must be destroyed, buried onsite at least six (6) feet below the surface, or trucked to a landfill to prevent spreading to other locations. A list of Prohibited and Regulated Invasive Species can be found at the Cornell University Cooperative Extension – New York Invasive Species Information web page (<http://nyis.info/regulated-species/>). Extreme caution should be taken to avoid the spread of these species throughout the duration of the project.

**33. Aquatic Invasive Species Control** All equipment entering water at the site shall be checked for aquatic invasive species, which are identified in the Prohibited and Regulated Invasive Species regulations (6 NYCRR 575). If aquatic invasive species rhizomes, roots or seeds are found, equipment shall be thoroughly cleaned before entering and exiting the construction site and/or waterbody. Aquatic invasive species must be disposed of at an appropriate upland location. Under no circumstance shall any aquatic invasive species propagule be allowed to enter another wetland, waterbody or floodplain. A list of Prohibited and Regulated Invasive Species can be found at the Cornell University Cooperative Extension – New York Invasive Species Information web page (<http://nyis.info/regulated-species/>). Extreme caution should be taken to avoid the spread of these species throughout the duration of the project.

**34. No Invasive/Non-Native Plant Species** No invasive/non-native plant species shall be introduced to the site. Seed mixes chosen for stabilization of disturbed soil shall not include any invasive and/or non-native plant species, such as reed canary grass (*Phalaris arundinacea*). A list of both terrestrial and aquatic invasive/non-native plant species can be found at the Cornell University Cooperative Extension – New York Invasive Species Information web page (<http://nyis.info/wp-content/uploads/2018/07/NYS-Part-575-Prohibited-and-Regulated-Plants.pdf>).

**35. Stabilize Disturbed Areas** All areas of soil disturbance resulting from this project shall be shaped and/or graded, seeded with an appropriate seed mix, and covered with straw or other weed-free mulch within one week of final grading or prior to permit expiration if project is incomplete, whichever comes first. The mulching material shall be maintained until stable vegetative cover is established. The approved methodologies are as follows:

- a) Stabilization of the entire disturbed area with appropriate vegetation (e.g., grasses, etc.).
- b) Stabilized as per specifications identified on approved plans.
- c) Temporarily stabilized with straw mulch, jute matting or other similar natural fiber matting within one (1) week of final grading completion. Temporary stabilization shall be maintained until stable vegetative cover is established.

**36. Temporary Mulch and Seed** If seeding is impracticable due to the time of year, straw, jute matting or other weed-free mulch shall be applied within one (1) week of final grading completion and final seeding shall be performed at the earliest opportunity when weather conditions favor germination and growth but not more than six (6) months after project completion.

**37. Stabilize Excavated Soil** Any excavated soil stockpiled and remaining after construction is completed shall be placed outside the wetland and wetland adjacent area, and at least 50 feet from any protected stream banks. The excavated soil shall be suitably retained and covered so that there is no turbid runoff discharged either directly or indirectly into any waterbody or wetland.

**38. State May Require Site Restoration** If upon the expiration or revocation of this permit, the project hereby authorized has not been completed, the applicant shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may lawfully require, remove all or any portion of the uncompleted structure or fill and restore the site to its former condition. No claim shall be made against the State of New York on account of any such removal or alteration.

**39. State May Order Removal or Alteration of Work** If future operations by the State of New York require an alteration in the position of the structure or work herein authorized, or if, in the opinion of the Department of Environmental Conservation it shall cause unreasonable obstruction to the free navigation of said waters or flood flows or endanger the health, safety or welfare of the people of the State, or cause loss or destruction of the natural resources of the State, the owner may be ordered by the Department to remove or alter the structural work, obstructions, or hazards caused thereby without expense to the State, and if, upon the expiration or revocation of this permit, the structure, fill, excavation, or other modification of the watercourse hereby authorized shall not be completed, the owners, shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may require, remove all or any portion of the uncompleted structure or fill and restore to its former condition the navigable and flood capacity of the watercourse. No claim shall be made against the State of New York on account of any such removal or alteration.

**40. State Not Liable for Damage** The State of New York shall in no case be liable for any damage or injury to the structure or work herein authorized which may be caused by or result from future operations undertaken by the State for the conservation or improvement of navigation, or for other purposes, and no claim or right to compensation shall accrue from any such damage.

**41. Submission of Post-Construction Photographs** The Permittee shall notify the Department of project work completion prior to the expiration of the General Permit authorization or within 30 days of the authorized work completion, whichever is earlier. Notification shall be submitted to the Regional Permit Administrator by e-mail to [r4dep@dec.ny.gov](mailto:r4dep@dec.ny.gov) or regular mail and must provide color photographs showing the completed work taken from at least two different angles, reference GP-4-19-001, the Permittee name, and the project completion date.

- 3.2. Liquidated Damages: OWNER and CONTRACTOR recognize that time is of the essence of this Agreement and that the OWNER will suffer financial loss if the Work is not completed within the times specified in paragraph 3.1 above, plus any extensions thereof allowed. They also recognize delays, expense and difficulties involved in proving the actual loss suffered by the OWNER when the Work is not completed on time. Accordingly, instead of requiring such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER Liquidated Damages assessed in accordance with the current NYSDOT Standard Specifications, Section 108-03 and/or Table 108-1 “Schedule of Liquidated Damages” included below. If Section 108-03 and/or Table 108-1 are amended during the project, the amended provision shall control. The Reference to the “Commissioner of Transportation” shall be read to mean OWNER.

- THESE WEIGHTS SHALL BE USED IN DETERMINING PARTIAL PAYMENTS AND PROGRESS. UNDER NO CIRCUMSTANCES SHALL THE "TOTAL WEIGHT FOR PROGRESS PAYMENT" BE USED FOR FINAL PAYMENT PURPOSES. THE CONTRACTOR IS ADVISED NOT TO USE THE "TOTAL WEIGHT FOR PROGRESS PAYMENT" AS A BIDDING TOOL. DISCREPANCIES WHICH MAY OCCUR BETWEEN THE TOTAL WEIGHT SHIPPED AND "TOTAL WEIGHT FOR PROGRESS PAYMENT" SHALL NOT BE A BASIS FOR ADDITIONAL COMPENSATION.

IN ACCORDANCE WITH THE SCM AT LEAST FIFTEEN (15) DAYS PRIOR TO INSTALLATION.
    - THE DESIGN OF THIS STRUCTURE ASSUMES THAT THE STRUCTURAL STEEL IS COMPLETELY ERECTED BEFORE IT IS ALLOWED TO DEFLECT UNDER ITS OWN DEAD LOAD. DEFLECTIONS INCURRED DURING THE VARIOUS STAGES OF THE ERECTION METHOD ARE NOT CONSIDERED. THEREFORE, THE ACTUAL ERECTION METHODS AND SEQUENCES EMPLOYED BY THE CONTRACTOR MAY HAVE A SUBSTANTIAL EFFECT ON THE FINAL STEEL PROFILE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR TAKING ALL NECESSARY COMPENSATORY ACTION TO ENSURE THAT THE FINAL ALIGNMENT AND PROFILE OF THE ERECTED STEEL CONFORMS TO SUBSECTION 1213, 1214, AND 1215 OF THE NEW YORK STATE STEEL CONSTRUCTION MANUAL (SCM). ANY CORRECTIVE WORK NECESSARY TO RE-POSITION PREVIOUSLY ERECTED STEEL TO ACHIEVE ACCEPTABLE ALIGNMENT AND PROFILE MUST BE APPROVED BY THE E.I.C., AND SHALL BE PERFORMED AT NO ADDITIONAL COST TO THE COUNTY.
  - THE PROVISIONS OF THE CURRENT SPECIFICATIONS FOR SUPERSTRUCTURE SLABS ALLOW THE OPTION OF 3 FORMING SYSTEMS FOR THE UNDERSIDE OF THE SLABS. HOWEVER, ON THIS BRIDGE, ONLY THE FOLLOWING OPTION(S) WILL BE PERMITTED: PERMANENT CORRUGATED METAL FORMS OR REMOVABLE WOODEN FORMS.
  - THE CONTRACTOR SHALL MAKE NO DEVIATIONS FROM THE HAUNCH DETAILS SHOWN ON THESE PLANS WITHOUT THE PERMISSION OF THE E.I.C.

THE CONTRACTOR SHALL NOT RETURN DIRECTLY TO A STREAM ANY WATER WHICH HAS BEEN USED FOR WASH PURPOSES OR OTHER SIMILAR OPERATIONS WHICH CAUSE THIS WATER TO BECOME POLLUTED WITH SAND, SILT, CEMENT, OIL, OR OTHER IMPURITIES. IF THE CONTRACTOR USES WATER FROM A STREAM, THE CONTRACTOR SHALL CONSTRUCT AN INTAKE OR TEMPORARY DAM REQUIRED TO PROTECT AND MAINTAIN WATER RIGHTS AND TO SUSTAIN FISH LIFE DOWNSTREAM.
- THE PROJECT PERMIT CONDITIONS DO NOT REQUIRE IN STREAM WORK RESTRICTIONS. HOWEVER, THE CONTRACTOR SHALL FAMILIARIZE THEMSELVES WITH ALL PERMIT REQUIREMENTS. ENVIRONMENTAL PERMITS ARE INCLUDED IN THE PROJECT MANUAL.

**REMOVAL NOTES**

- EXISTING SUBSTRUCTURE SHALL BE REMOVED WITHIN THE LIMITS SHOWN ON THE PLANS UNDER ITEM 202.19.
- EXISTING SUPERSTRUCTURE SHALL BE REMOVED UNDER ITEM 202.120001.

REMEDIATION METHODS COULD INCLUDE TRANSPORTING AFFECTED MEMBERS IN CLOSED TRUCKS, WRAPPING AFFECTED MEMBERS PRIOR TO REMOVAL, ENCAPSULATING THE LOOSE PAINT OR REMOVAL OF LOOSE PAINT PRIOR TO DISMANTLING OPERATIONS. THE COST OF REMEDIATING THIS CONDITION SHALL BE INCLUDED IN THE LUMP SUM PRICE(S) BID FOR THE SUPERSTRUCTURE REMOVAL ITEM(S) OR THE UNIT PRICE BID FOR THE SUBSTRUCTURE REMOVAL ITEM. THE USE OF ENVIRONMENTAL GROUND AND/OR WATERWAY PROTECTION ITEMS WILL BE REQUIRED. DEPENDING ON THE ALTERNATIVE CHOSEN, THE TREATMENT AND DISPOSAL OF PAINT REMOVAL WASTE ITEM MAY BE REQUIRED. BECAUSE OF THE ABOVE MENTIONED CONDITION, THE CONTRACTOR SHALL EXAMINE THE CONDITION OF THE STRUCTURE'S PAINT PRIOR TO SUBMITTING A BID.

**RECONSTRUCTION NOTES**

- DUE TO THE NATURE OF RECONSTRUCTION PROJECTS, THE EXACT EXTENT OF RECONSTRUCTION WORK CANNOT BE ACCURATELY DETERMINED PRIOR TO THE COMMENCEMENT OF WORK. THESE CONTRACT DOCUMENTS HAVE BEEN PREPARED BASED ON FIELD INSPECTION AND OTHER INFORMATION AVAILABLE AT THIS TIME. ACTUAL FIELD CONDITIONS MAY REQUIRE MODIFICATIONS TO CONSTRUCTION DETAILS AND WORK QUANTITIES. THE CONTRACTOR SHALL PERFORM THE WORK IN ACCORDANCE WITH FIELD CONDITIONS.
- THE CONTRACTOR SHALL PERFORM ALL WORK WITH CARE SO THAT ANY MATERIALS WHICH ARE TO REMAIN IN PLACE, OR WHICH ARE TO REMAIN THE PROPERTY OF THE CITY, WILL NOT BE DAMAGED. - WHENEVER ITEMS IN THE CONTRACT REQUIRE MATERIALS TO BE REMOVED AND DISPOSED OF, THE COST OF SUPPLYING A DISPOSAL AREA AND TRANSPORTATION TO THAT AREA SHALL BE INCLUDED IN THE UNIT PRICES BID FOR THOSE ITEMS.
- DURING REMOVAL OPERATIONS, THE CONTRACTOR SHALL NOT DROP WASTE CONCRETE, DEBRIS, AND OTHER MATERIAL TO THE AREA BELOW THE BRIDGE EXCEPT WHERE THE PLANS SPECIFICALLY PERMIT THE DROPPING OF MATERIAL. PLATFORMS, NETS, SCREENS OR OTHER PROTECTIVE DEVICES SHALL BE USED TO CATCH THE MATERIAL. IF ADEQUATE PROTECTIVE DEVICES ARE NOT BEING EMPLOYED, THE WORK WILL BE STOPPED UNTIL ADEQUATE PROTECTION IS PROVIDED.
- ALL MATERIAL FALLING ON THE AREA BELOW AND ADJACENT TO THE BRIDGE SHALL BE REMOVED AND DISPOSED OF BY THE CONTRACTOR AT NO COST TO THE COUNTY.
- THE COST OF FURNISHING, INSTALLING, MAINTAINING, REMOVING AND DISPOSING OF ALL PLATFORMS, NETS, SCREENS OR OTHER PROTECTIVE DEVICES SHALL BE INCLUDED IN THE PRICES BID FOR THE APPROPRIATE ITEMS OF THE CONTRACT.
- THE CONTRACTOR SHALL MOUNT A NEW BRIDGE IDENTIFICATION NUMBER 3310200 PLATE THAT MEETS THE FOLLOWING MATERIAL REQUIREMENTS:  
 PANEL WITH REFLECTIVE BACKGROUND: THE ALUMINUM PANEL SHALL CONFORM TO THE REQUIREMENTS OF THE NYSDOT STANDARD SPECIFICATIONS. THE BACKGROUND MATERIAL SHALL BE GREEN REFLECTIVE SHEETING CONFORMING TO THE REQUIREMENTS OF THE NYSDOT STANDARD SPECIFICATION FOR CLASS A SHEETING. THE SIZE OF THE PANELS SHALL BE 1/8 INCH THICK BY 3 INCHES BY 12 INCHES. A THIN RUBBER OR PLASTIC GASKET OR SHEETING MATCHING THE PLATE SIZE SHALL BE PLACED BEHIND THE PLATE PRIOR TO INSTALLATION.  
 NUMBERS: THE NUMBERS SHALL BE REFLECTIVE SHEETING CONFORMING TO THE REQUIREMENTS OF THE NYSDOT STANDARD SPECIFICATION FOR CLASS A SHEETING, EXCEPT THAT THE ADHESIVE SHALL BE PRESSURE-SENSITIVE SUCH THAT THE NUMBERS CAN BE APPLIED TO THE BACKGROUND IN THE FIELD. THE NUMBERS SHALL BE 2 INCHES HIGH AND SILVER-WHITE IN COLOR CONFORMING TO FHWA SERIES C DIMENSIONS.  
 PRIOR TO PLACING THE NUMBERS ON THE PANEL, THE REFLECTIVE BACKGROUND SHALL BE CLEAN AND FREE OF DIRT AND OIL WHICH MAY ADVERSELY AFFECT PROPER ADHESION. THE NUMBERS SHALL BE PLACED ON THE REFLECTIVE BACKGROUND, PERPENDICULAR TO THE LONGITUDINAL AXIS OF THE PANEL AND VERTICALLY CENTERED. THE REFLECTIVE BACKGROUND AND NUMBERS SHALL BE COATED AND/OR EDGE SEALED IN ACCORDANCE WITH THE RECOMMENDATIONS OF THE SHEETING MANUFACTURER.  
 THE BIN PLATE SHALL BE ATTACHED TO THE BEGINNING ABUTMENT, RIGHT SIDE OF THE BRIDGE USING EXPANSION ANCHORS. THE PLATE SHALL BE PLACED HIGH ON THE ABUTMENT, NEAR THE FASCIA OF THE BRIDGE SO THAT IT CANNOT BE PAINTED OVER VIA A SPRAY PAINT CAN OR EASILY REMOVED OR DAMAGED.  
 THE COST ASSOCIATED WITH PROVIDING AND INSTALLING THE NEW BIN PLATE WILL BE INCLUDED IN THE PRICE BID FOR VARIOUS CONTRACT ITEMS.
