Upright Project.

Diversity: One of Forbes' Top 500 Diverse
Companies

On-site Guarding

Building trust with clients, colleagues and the community

Securitas security officers are the foundation of our organization. Officers are screened and trained to enable them to deliver the highest degree of professionalism in our mission of helping safeguard people, property and information.

[securitasinc.com](https://www.securitasinc.com)

On-site Guarding Services

- Patrol and Inspection Services
- Alarm & Emergency Response
- Reception/Concierge
- Console Operations
- Safety Equipment Checks
- Employee & Visitor Badging and Identification
- Transportation Services and Coordination
- Customized and Site-specific Security Tasks
- Special Event Security

contact@securitasinc.com

Mobile Guarding

A cost-effective and customized security solution

Mobile patrol inspections are a proactive deterrent to theft, vandalism and other unlawful acts. Using clearly marked Securitas vehicles, our Mobile Officers can be dispatched remotely, or operate at both predetermined and random times from locations miles apart.

[securitasinc.com](https://www.securitasinc.com)

Mobile Guarding Services

RESPONSE SERVICES

- Alarm & Emergency Response
- Emergency Facility Access Control
- Duress Signal Response
- Emergency Safety Escorts

PROACTIVE SERVICES

- Patrol Inspections
- Facility Opening and Closing
- Employee Safety Escorts

contact@securitasinc.com

Remote Guarding

Traditional on-site guarding functions performed remotely

Remote Guarding Officers are specially trained to utilize intelligent technology designed with site risks in mind to take immediate action to manage the event.

When Remote Guarding Officers are alerted to the events occurring at your location they use sophisticated tools to mitigate unwanted activity, document all pertinent details and then coordinate a response with On-Site, Mobile or Law Enforcement Officers based on the specific need.

Incorporating Remote Guarding delivers better outcomes while improving the efficiency and effectiveness of your security resources.

[securitasinc.com](https://www.securitasinc.com)

Core Remote Guarding Services

- Remote Perimeter Protection
- Remote Entry/Exit
- Remote Employee Escort
- Remote Reception
- Remote Alarm Verification
- Remote Patrol
- Remote Crowdsource Safety

Electronic Security

Integrated Guarding

Delivering the most effective mix of our four core services

Securitas Integrated Guarding balances the expertise and innovation of two or more core security services — On-site Guarding, Remote Guarding, Mobile Guarding and Electronic Security — to provide optimal protection to your organization and unique security needs.

With its' blend of human expertise and advanced technology, Integrated Guarding directly addresses today's labor force challenges while creating meaningful operational efficiencies.

Fire & Safety

A long tradition of providing comprehensive fire & safety services

Certain industries that Securitas protects are more prone to fire hazards. In response, Securitas has developed a specialized group of highly trained personnel to expertly fight fires, handle hazardous material scenarios and provide related safety services.

These specialized services include EMT, fire and life safety consulting, fire brigade and fire equipment inspection services.

Fire & Emergency Service Capabilities

- Fire Inspections
- Fire Suppression
- Arson Investigations and Response Assessment
- Emergency Response
- Rescue Operations
- Emergency Plan Development

contact@securitasinc.com

As a major division of Securitas, GCA combines Securitas' service offerings into one platform that offers global clients a single point of contact for their security needs.

Global Clients Americas (GCA)

Consistent and standardized levels of security have become a demanding requirement for international and global firms. The GCA group designs and manages comprehensive large-scale security programs without the need to navigate through multi-supplier contracts. Securitas GCA is a proven business partner with the security

expertise and dedicated account management to adeptly assess, implement and manage your specific security requirements. For us to be successful, we realized the importance of understanding our client's business challenges to better serve their needs. For this reason, we created specialized teams within the

GCA business to align and evolve alongside your business and industry. These specialized verticals are supported by Securitas Response Services, the number one resource for on-site temporary and emergency security service needs.

Data Center

Protective Services

Providing expertise and specialized services to our global data center customers. Whether collocated or proprietary, the data center market requires uniquely advanced training and high-level service delivery targeting error-free performance. Securitas' Data Center Protective Services group is the first of its kind designed to meet the needs of this ever-changing market.

Specialty Divisions

Healthcare

Providing protective services for 500+ healthcare facilities utilizing our expertise, specialized training and technology-driven resources. Our subject matter experts help to reduce and mitigate risks for an industry where security can be the difference between life and death.

Paragon Systems

With over 14,000 professionals, Paragon and Securitas Critical Infrastructure Services are the leading provider of specialized security, fire, investigations, inspections, cybersecurity, risk management and mission support services to the U.S. Federal Government and other critical infrastructure clients.

Tech-forward Transformation

Securitas has holistically redesigned its business processes, infrastructure and service approach.

The result has been a fundamental business and technology transformation. The primary focus of this transformation has been to enrich the client and employee experience while accelerating our momentum in moving Securitas – and the industry – to security programs that are truly transparent, integrated and predictive.

Our Transformation's Client-centric Drivers

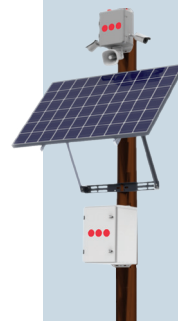

- Total program transparency: billing, scheduling, contracts, officer qualifications and performance.
- Data-driven client decisions.
- Automated, paperless processes.
- Advanced, intelligent insights on program effectiveness and futures.

Continuous Innovation

In these times of unprecedented change, Securitas' ability to deliver agile and reliable security options is unparalleled.

Our most recent innovations have spanned a variety of new capabilities and applications, including:

- Solar Power
- Remote Reception
- Virtual Recruiting
- Quick Deployment **RGGo** and **RGWatch** Solutions
- Virtual Training
- Traffic Safety

With over 150 years
of keeping people
and assets safe,
we see the power
of blending human
talent and advanced
technology.

See a different world
