

To: Town of Glen Town Board  
From: Town of Glen Planning Board  
Re: Industrial Solar Moratorium  
Date: July 12, 2021

Supervisor John Thomas, Board Members,

As you are aware, Large Industrial Solar Generation facilities are targeting localities having open, accessible prime land across NYS and more specifically, Montgomery County and the Town of Glen. Companies proposing to construct generating facilities in excess of 25 Megawatts are by the NYS Legislative Process creation of 94-c siting regulations exempt from our local planning process. Removal of local over-site and control ultimately removes our right to self-determination, protecting our Town's natural resources, and the adherence to our adopted comprehensive plan.

The Town of Glen Planning Board collectively and respectively requests the Town Board of the Town of Glen to sponsor and enact without delay a "Time for review" in the form of an Industrial Solar construction moratorium in the Town of Glen

Tim Reilly
