

Dear Friends

1-24-2022

Greetings!

In concern of

the big turbine go up accross the street from our house. we don't want it. We don't want to here that sound. What is going to happen to the wildlife? Why can they come accross adjoining property's without permission from the land owner? Why can they put no hunting signs out? They have no rights on my prop. what so ever. why would any body want to destroy farm ^{land} with something we don't need? They have been around watching for birds and other wild animals. why are they more concerned about the animals then the people.
